

Protecting you for life's *best* moments.

Case Study:
Z-Link[®]

Homrich Wrecking - Detroit, Michigan

My name is Frank Sedita, I work for Homrich Wrecking Incorporated, and we are here at the Packard Plant in Detroit, Michigan.

I'm a heavy equipment operator, I run the machines on site to process the material, pull out the rebar, pull down the building when needed.

Case Study: Z-Link®

Homrich Wrecking Inc. - Detroit Michigan

My name is Jim King, I'm the heavy equipment operator. We do a lot of asbestos type work, obviously for what we do.

Typical day, if we're doing just a standard demolition we get a machine fired up, we come in, make sure we got a lot of water spraying to try to contain the dust as much as possible. And we go in mechanically demolish the building.

I've been using the RPB Z-Link for about a week now. I got my very own as of Friday, so this is the first day using my very own. Like, it's actually mine now. I like it a lot, it's very comfortable. It fits almost like a motorcycle helmet, it's extremely comfortable.

A half face respirator for me is so difficult to wear that it's almost, after a period of 10-20 minutes it starts to get scary, because you can't catch your breath. With the Z-Link you have supplied air, you're not labored to pull your air through a filter. It's all the difference in the world. The other ones that I've used before, the competitors that we've used, are either too tight fitting, too loose, not comfortable around the head, not very padded, just not up to par.

There's no contest, absolutely no contest. I'll be honest with you, this is something that I don't have a problem wearing. Sometimes you forget you're even wearing it.

Frank Sedita
Equipment Operator

Jim King
Equipment Operator

“With the Z-Link you have supplied air, you're not labored to pull your air through a filter. It's all the difference in the world.”

What are your life's best moments?

■ Frank Sedita

On the weekends you know, I'm in a poker league and whenever people come into town, I'm a big fan of going to concerts, I love country music.

Going home to my kids at the end of the day, I think that's, I think that's everybody's here.

At the end of the day that is the main goal, is to make sure everybody goes home safe at the end of the day everybody's accounted for.

■ Jim King

Uh you'll find me either on the back of my pontoon riding the water with a fishing pole, or you'll see me on the back of my motorcycle riding the back roads.

I have a wonderful wife, been my partner, my life partner for 35 years, and what more can I say about that. She needs me.

"At the end of the day that is the main goal, is to make sure everybody goes home safe at the end of the day everybody's accounted for."

- Frank Sedita
