coupler, and in 15 or 25ft lengths.

Protecting you for life's best moments.

# Features & Benefits

When equipped with a mainline pre-filter, remove particulates down to 0.15 microns.

Filter cartridge lasts up to 3 months, or 400 operating hours.

Micro mist filter removes moisture/oil. Recommended if the user has known moisture problems coming from compressor.

Unique twist and lock floor or wall mounting.

■ 2 or 6 outlet options available.

■ Big bore filter lid available if hard piping into compressed airline.

■ Strong robust housing.

All parts can be purchased individually for easy maintenance and servicing.

## **⚠️ WARNING** PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.** As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
  - 2. Check product specifications.** Contact RPB® or check the product instruction manual (downloadable from [rpbsafety.com](https://rpbsafety.com)) for complete specifications, including approvals, standards, and regulations to which the product conforms.
  - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**
