Tight-fitting and Loose-fitting Respiratory Protection

## Our Story

**We are the respiratory protection specialists, dedicated to protecting you for life's best moments.**

Protecting people drives everything we do at GVS-RPB®. For over four decades, we have serviced the industrial market, working with world leading engineers, constantly pushing creative boundaries with new technology that advances our functional capabilities, seeking input from our end users, and refining our range to create the world's best respirators.

As our passion for protecting people continues to grow, we have extended our product range and branched into new industries, sharing our respiratory protection expertise to better the lives of more people. Through this growth, we have taken the next step in our journey, becoming part of the GVS Group, a global manufacturer of filtration devices for the Medical & Life Science, Energy & Mobility, and Health & Safety industries. By teaming up with dedicated filtration specialists, this enables us to expand the possibilities of what personal protection has to offer as we continue to shape the future of respiratory protection.

## Global Network

GVS-RPB® has a global network of distributors.

# Z-Link® Respirator

Multi-purpose Respiratory Protection

# Z-Link® Respirator

## Multi-purpose Respiratory Protection

The Z-Link® is the most versatile multi-purpose respirator on the market, designed to be resilient in harsh industrial applications, while also practical to meet the demands of healthcare and life sciences settings. The Z-Link has been created with your comfort and functionality in mind, ensuring no matter where you're working, you'll be protected for your life's best moments.

Visibility has been at the forefront of the Z-Link's design, boasting a large visor that enables you to see with exceptional downward and peripheral vision. This system also combines with a visor that hinges open so you can easily communicate with your team, as and when necessary.

Fitted with a padded headliner and head suspension system, the Z-Link's weight is evenly distributed, relieving you of aches and strains on your neck to enhance your experience of comfort. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on your job at hand. The Z-Link is everything you need in a respirator.

The Z-Link is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

**ANSI**  
S3.19  
HEARING PROTECTION  
Only in conjunction with 18-533 earmuffs.  
Z89.1  
HARD HAT PROTECTION  
Type 1 Class G  
Z87+  
EYE & FACE PROTECTION

**CE**  
Certified Model  
Modèle certifié  
CSA Z94.3-15  
EYE & FACE PROTECTION  
Class 7D Respirator Facepiece  
PROTECTION DES YEUX ET DU VISAGE  
Masque respiratoire classe 7D

### Superior Comfort

The fully adjustable Comfort-Link™ fit system allows for total control of your sizing through supportive padding and the adjustable 360° head band and ratchet system.

Visor hinges open for easy communication with team members (outside of respiratory hazards).

Optimum vision and high velocity impact protection with large optically-clear safety lens (replaceable spare part). Choice of 5 anti-fog and scratch resistant ANSI Z87+ lenses: Premium Clear, Green Tint (Shade 5), Yellow Tint, Black Tint, and Mirror Tint.

ANSI Z89.1 certified head protection.

Padded interior with adjustable ratchet system ensures a perfect customized fit that supports movement, increasing comfort and productivity.

Three cape materials available: Tychem® 2000, Tychem® 4000 or Zytex® FR.

Air flow and distribution is fully adjustable with the air deflector system to suit your personal preference.

Fixed jaw ensures secure cape attachment.

Vision-Link™ light mount point.

\*From local & globally sourced components.

Visor shown open for marketing purposes only. Do not open your visor in the work environment.

# Z-Link+® Respirator

## Multi-purpose Respiratory Protection

The Z-Link+® has been designed to give you all the freedom and comfort that you receive with the Z-Link but extends the respirator's capabilities, giving you eye protection so you can weld without the need for additional systems.

The Z-Link+ weld visor clips on directly to your main visor so you can seamlessly weld with optically clear vision, then lift up the visor to check welds and instantly begin grinding again. With the large GVS-RPB® ADF lens with a 1/1/1/2 optical quality rating, this guarantees uniform shading and distortion free vision, while allowing you to work safely and more comfortably for longer across different angles.

The Z-Link+ is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

**ANSI**  
S3.19  
HEARING PROTECTION  
Only in conjunction with 18-533 earmuffs.  
Z89.1  
HARD HAT PROTECTION  
Type 1 Class G  
Z87+  
EYE & FACE PROTECTION  
Z87W  
WELDING EYE PROTECTION

**SEI**  
Certified Model  
Modèle certifié  
CSA Z94.3-15  
EYE & FACE PROTECTION  
Class 7D Respirator Facepiece  
PROTECTION DES YEUX ET DU VISAGE  
Masque respiratoire classe 7D

The weld visor can be easily removed for extended periods where just grinding is required.

Large welding auto darkening filter with a 1/1/1/2 rating. Variable auto darkening lens (shades 3, 5, or 9-13). Replaceable impact and ADF lenses for ease of maintenance.

Z-Link+ weld visor attaches directly onto to the main grinding visor, enabling you to seamlessly switch from welding to grinding while maintaining respiratory protection.

The Z-Link+ weld visor weighs only 13.8oz (390g) including ADF.

**MADE  
IN THE USA**  
  
\*From local & globally sourced components.

### Removable Welding Visor

The Z-Link+ weld visor clips directly onto your main visor, enabling you to lift up your visor to check welds and to instantly begin grinding. For extended periods of grinding the visor is easily removed at the hinge points.

# Z-Link® Radiant Heat Respirator

## Heat Defence

The Radiant Heat kit transforms your Z-Link® respirator into a complete protective system for high heat environments. Utilizing the Z-Link headtop, experience unrivaled comfort as heat is deflected away from you and air continuously circulates throughout the headtop, so you can work safer for longer.

The Radiant Heat kit features a large, gold coated visor that reflects heat off you, keeping your body temperature down, while allowing you to see all of your environment with an uncompromised field of view. With flame resistant and reflective materials this protects you from sparks and splashes while providing additional relief from the heat.

Enhance your experience of safety and productivity in high heat environments by using protection that revolutionizes the way you work, with the Z-Link Radiant Heat.

The Z-Link Radiant Heat is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

**ANSI**  
S3.19  
HEARING PROTECTION  
Only in conjunction with 19-533 earmuffs.  
Z89.1  
HARD HAT PROTECTION  
Type 1 Class G  
Z87+  
EYE & FACE PROTECTION

**CEI**  
Certified Model  
Modèle certifié  
CSA Z94.3-15  
EYE & FACE PROTECTION  
Class 7D Respirator Facepiece  
PROTECTION DES YEUX ET DU VISAGE  
Masque respiratoire classe 7D

Gold coated visor reflects radiant heat, minimizing heat transfer for increased comfort while ensuring eye protection. Visor options include anti-scratch gold coated (pictured), anti-scratch IR5 gold coated, and IR5.

Large visor lift tab enables users to easily raise and lower the visor while wearing gloves.

Air flow is dispersed throughout your breathe zone, as well as over the head, neck, and body to aid in cooling.

Integrated hard hat protection.

The Aluminized fabric is flame resistant and protects the skin from sparks, splashes and radiant heat. Manufactured from Newtex Z-Flex O-310 Aluminized FR O-PAN/Aramid fabric.

Clip-on visor requires no tools for easy detachment and replacement.

Secured cape ensures the hood moves with you for a greater range of movement.

Aluminized breathing tube cover available to increase the life of the breathing tube.

\*From local & globally sourced components.

### Shade 5 Protection

The shade 5 visor is great for torching or other applications where flip up shade 5 protection is needed and attaches to the Z-Link the same as the heat reflection visor.

Z4<sup>®</sup> Respirator  
Powerful Protection

# Z4® Respirator

Powerful Protection

With comfort and durability the top priority, GVS-RPB® has created the most ergonomically balanced welding respirator available. Its lightweight design and multi-adjustment head suspension system ensures a stable fit that moves with you, reducing aches and strains on your neck, allowing you to enjoy life's best moments.

The Z4® boasts an optically clear grinding visor and a flip-up welding visor designed to increase operator productivity. Visibility is further enhanced by clip-in shade 5 side windows offering maximum peripheral vision. These can also be switched out for window blockers which are included in the standard package.

The Z4 includes the large GVS-RPB ADF lens with 1/1/1/2 optical quality rating guaranteeing uniform shading and distortion free vision, allowing you to work safely and more comfortably for longer across different angles.

To further increase your comfort and stability, the Z4 can also be fitted with the Comfort-Link™ padding system for an Individualized fit.

The Z4 is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

**ANSI**  
S3.19

PROTECTION DES YEUX ET DU VISAGE  
Masque respiratoire classe 7D et 7B

## Dual Air Distribution System

Air is delivered through the dual air distribution system, flowing over the grinding visor to eliminate lens fogging and also to the breathe zone. With the adjuster you can control the direction of the incoming air to suit your preferences.

\*From local & globally sourced components.

Optimum vision with a clear replaceable ANSI Z87+ certified grinding lens.

Lightweight headtop weighing just 1.77lbs with ADF and cape.

Aerodynamic shell design deflects fumes away.

Flip up welding visor during grinding, while maintaining respiratory protection.

Large auto darkening welding lens with a 1/1/1/2 rating. Variable lens shade (9-13).

Replaceable impact and ADF lenses for ease of maintenance. Optional magnifying lens available.

Comfortable multi-adjustment head suspension system - ergonomically balanced to reduce fatigue.

The dual air distribution system delivers 75% of air supply to your breathe zone via a multi-directional outlet. The remaining 25% is directed over the grinding visor to prevent fogging.

FR rated head cover and cape.

Nova 3<sup>®</sup> Respirator  
Unrivalled Comfort

# Nova 3<sup>®</sup> Respirator

Unrivalled Comfort

The Nova 3<sup>®</sup> revolutionizes the abrasive blasting experience with the world's most comfortable blasting respirator. With breakthrough technology and comfort, the Nova 3 has been designed around the operator's needs to advance their safety and productivity.

Visibility has been at the forefront of the Nova 3 design process. With the unique cassette lens system, you can experience an optically clear field of view at all times. The superior operating window optimizes peripheral vision and allows for 30% more downward vision than other respirators on the market.

The ratchet padding system provides a customizable fit and molded side pads absorb sound, protecting against hearing loss. Its unique helmet design distributes weight evenly across your head and shoulders, keeping the center of gravity low, eliminating top heaviness, and relieving you from aches and strains on your neck.

All parts are field replaceable to minimize downtime and the padding system is machine washable for hygiene purposes.

The Nova 3 is certified to the standards below:

NIOSH

APPROVED

SAR TYPE CE / PAPR TYPE C

ANSI

Z89.1

HARD HAT PROTECTION

Type 1 Class C

Z87+

EYE & FACE PROTECTION

### Boost Productivity

Our cassette lens system enables you to easily tear-off the outer lens when your view becomes obstructed, significantly reducing your downtime.

Streamlined air deflection system distributes air across your breathe zone and across the lens to prevent fogging.

Bellow seal creates a complete barrier to dust and particulates.

Widened perspective provides optimal downward and peripheral field of view.

Tear-off lens system to ensure you always have a clear visor when operating. Cassette lens system available to further increase productivity.

Tough helmet shell, manufactured from robust engineering grade nylon offers ANSI Z89.1 (EN397) certified hard hat protection.

Ratchet system and adjustable molded side pads to help create a secure, customized fit.

Large, glove sized latch that is easy to locate and use.

Removable visor for efficient lens replacement.

Cape is securely attached with eight snap fasteners.

\*From local & globally sourced components.

T-Link® Respirator  
Move Freely

# T-Link® Respirator

Move Freely

The T-Link® has been designed to move with you, not against you. With your comfort and job our main focus, the T-Link transforms how you work, advancing your safety and increasing productivity.

Your ability to see has been at the forefront of our design process, with the T-Link boasting a large visor that enables you to easily connect with your surroundings. This is further supported by the Tychem® hood that securely attaches to the headtop, ensuring your downward and peripheral vision is never compromised. The soft breathable inner-bib and extra tuck-in collar ensures maximized comfort and helps to direct air down your body for cooling.

Fitted with a padded headliner and head suspension system, the headtop's weight is evenly distributed to enhance your experience of comfort, relieving you of aches and strains on your neck. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on the task at hand.

The T-Link is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

ANSI

S3.19

HEARING PROTECTION

Only in conjunction with 18-533 earmuffs.

Z87

EYE & FACE PROTECTION

Not all configurations conform to this standard.  
Please visit [gvs-rpb.com](#) for more details.

## Optional Comfort-Link™ Fit System

The Comfort-Link™ is an optional, fully-adjustable fit system that allows total control of helmet and head placement as well as making sure the T-Link® moves with your head.

Padded headliner supports weight distribution while relieving you of the effects of any pressure points.

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference.

Optional ANSI Z87 certified safety lens.

Large viewing window for exceptional downward and peripheral vision.

Fixed lens frame ensures the lens will never hit your nose or optical aids being used.

Optically clear peel-off and cassette lenses available.

From local & globally sourced components.

Two cape materials available:  
DuPont™ Tychem® 2000,  
DuPont™ Tychem® 4000.

Option of bump cap or ANSI Z89.1 certified hard hat protection.

Adjustable ratchet system ensures a customised fit that supports movement, while increasing comfort and productivity.

Breathing tube easily attaches to the respirator and swivels to eliminate tangles. Centralised location ensures even weight distribution.

Soft, breathable inner-bib and long tuck-in collar for extra protection and upper body air flow.

T200™ Respirator  
Protection That Supports You

# T200™ Respirator

Protection That Supports You

The T200™ enables you to work in your environment free of respiratory hazards and discomfort through its supportive design. With positive pressure breathing and true freedom of movement, the T200 ensures you can navigate your surroundings without any restrictions so you can focus on whats in front of you.

Made for customization, the T200's head harness features multiple adjustment points, allowing you to change the fitting to suit the contours and shape of your head. Through the secure fit and streamlined framework, this maximizes stability, relieving you of aches and strains on your neck.

With the large clear visor, experience an uncompromised field of view that allows for greater precision and attention. The T200 also features adjustable lens and air ducting positioning to accommodate for different facial features and the use of optical aids such as loupes and prescription lens glasses.

Get more out of your role by using respiratory protection that supports, not restricts you. Experience more with GVS-RPB®.

The T200 is certified to the standards below:

**NIOSH**  
APPROVED  
PAPR & SAR TYPE C

**ANSI**  
S3.19  
HEARING PROTECTION  
Only in conjunction with 16-524 earmuffs.

### Customizable Layout

Customize the internal layout with four adjustable head harness points and the moveable lens and air duct system to suit your needs.

Moveable lens and airduct positioning to accommodate for different facial features and optical aids.

Deconable head suspension system and disposable hood.

Large viewing window for exceptional downward and peripheral vision allowing for both verbal and non-verbal communication.

Soft inner neck seal for extra comfort.

Customizable head suspension system includes an adjustable ratchet at the back and over-the-head straps to allow for a secure, individualized fit.

Breathing tube easily attaches to respirator and swivels to eliminate tangles. Centralized location ensures even weight distribution.

DuPont™ Tychem® 2000 available in face seal, medium length & full length hood options. Full length hood also available in DuPont™ Tychem® 4000.

# Tight-fitting Respirators

# Elipse® Respirator

## Compact Respiratory Protection

The Elipse half-face respirator is a durable, lightweight, and compact PPE solution. With a wide range of filter options available, the Elipse provides a high level of respiratory protection for users across a wide range of industries.

The sleek and considered profile minimizes obstruction to your line of sight for greater precision and accuracy when working. The body of the Elipse has been designed for lasting comfort. Available in two sizes and constructed from soft TPE material, the respirator can mold to the contours of your face for a customized fit and feel. The elasticated head and neck strap is easily adjustable, enabling the respirator to sit securely on your face while also creating the tight seal needed to maintain protection from respiratory hazards.

Filters available for the Elipse respirator range from the P100 filter, for protection against dust and other particulate hazards down to 0.3 microns, through to OV and Multi-gas cartridges for further protection against organic, inorganic, chemical, and ammonia based gases. Durable and adaptable, there will be a model of the Elipse respirator ready to meet the demands of your job and provide the respiratory protection needed to get you home safe at the end of the day.

The Elipse is certified to the standards below:

NIOSH

APPROVED

EHMR P100/P100 Nuisance OV/  
OV/AG/OVAG/MG  
P100 OV/P100 AG/  
P100 OVAG/P100 MG  
Depending on filter type used.

42 CFR 84 & 42 CFR 23

RESPIRATORY PROTECTION

Nasal area has a ridge which prevents the respirator from slipping or leaking, and glasses from fogging.

Sleek and considered profile ensures you always have a clear and unobstructed line of sight.

The soft material molds to the contours of the user's face to ensure a customized fit and feel.

The respirator body can be cleaned and disinfected for reuse.

Made from soft, medical grade TPE material and conforming to ISO 10993-10:2010 for irritations, it is hypoallergenic, odor free, latex free and silicone free.

4 point adjustable elasticated head and neck strap with comfort pad.

Available in two sizes: S/M & M/L.

Part # SPR456  
Size M/L

A blue and purple Elipse® P100 Nuisance Odor respirator with a circular filter on the front and a blue strap with the GVS logo.

Elipse® Low-profile OV/P100

Comes with filters pre-installed.  
Replacement filters available.

Part # SPR656  
Size S/M

Part # SPR657  
Size M/L

A blue and purple Elipse® Low-profile OV/P100 respirator with a circular filter on the front and a blue strap with the GVS logo.

Elipse® OV/AG/P100

Comes with cartridges pre-installed.  
Replacement cartridges available.

Part # SPR472  
Size S/M

Part # SPR473  
Size M/L

A blue and purple Elipse® OV/AG/P100 respirator with a circular filter on the front and a blue strap with the GVS logo.

Elipse® OV/P100

Comes with filters pre-installed.  
Replacement filters available.

Part # SPR466  
Size S/M

Part # SPR467  
Size M/L

A blue and purple Elipse® OV/P100 respirator with a circular filter on the front and a blue strap with the GVS logo.

Elipse® Multi-gas

Comes with cartridges pre-installed.  
Replacement cartridges available.

Part # SPR481  
Size S/M

Part # SPR482  
Size M/L

A blue and purple Elipse® Multi-gas respirator with a circular filter on the front and a blue strap with the GVS logo.

Elipse® Multi-gas P100

Comes with cartridges pre-installed.  
Replacement cartridges available.

Part # SPR484  
Size S/M

Part # SPR485  
Size M/L

A blue and purple Elipse® Multi-gas P100 respirator with a circular filter on the front and a blue strap with the GVS logo.

# Elipse® P100 Source Control

## Compact Respiratory Protection

The Source Control version of the Elipse respirator is an alternative to N95 disposable respirators, reducing waste and costs for hospitals. It does not have an exhalation valve in order to avoid cross-contamination, and the exhalation valves were removed to improve the resistance providing optimal airflow.

### Elipse® P100 Source Control

**Part # SPR643**  
Size S/M

**Part # SPR644**  
Size M/L

Comes with P100  
filters pre-installed.  
Replacement filters available.

**Part # SPR321**  
P100 Filters (pair)  
*For Elipse SPR451, SPR457, SPR643  
and SPR644 respirators, and Integra  
SPR549 and SPR550 respirators.*

A low-profile, flexible design.  
The Elipse® molds to the shapes and contours  
of your face, enhancing the tight-fitting seal  
while ensuring your comfort and  
constant protection.

# Segre Respirator

High Performing Disposable PPE Solution

The Segre meets one of the highest classifications for a disposable respirator: N99.

With advanced filter technology and integrated comfort features, the Segre N99 provides high performing respiratory protection for applications that require disposable PPE.

The Segre offers 99% particulate filtration efficiency and 99.9% bacterial filtration efficiency (BFE), taking care of your protection, so you can focus on the task at hand.

The Segre is certified to the standards below:

**NIOSH**  
APPROVED  
FFR N99

## Segre Respirator

**Part # N31000**  
Segre - N99 Respirator  
*One size.*

**Part # SPM900**  
UV Sterilizer  
*Respirator not included.*

### Quality Protection

The Segre offers 99% particulate filtration efficiency, and 99.9% bacterial filtration efficiency (BFE).

Individually packaged for hygiene purposes.

Aluminum nose piece.

Comfort foam in polyurethane.

Electrostatic filter media layers in meltblown polypropylene with PET support.

Latex free rubber elastics.

ABS plastic parts.

Mechanical PTFE membrane.

Non-valved prevents those around you breathing in any contaminants you may exhale.

\*From local & globally sourced components.

Integra® Respirator  
Integrated Safety

# Integra® Respirator

## Integrated Safety

Building upon the compact, lightweight, and flexible design of the Eclipse, the Integra offers combined protection with the addition of integrated safety glasses, reducing the risk of non-compatibility, non-conformity, and mist build-up.

The safety glasses seal around the face, with the large lens and slim frame allowing you to maintain a wide field of view. Designed to allow the wearer to maintain clear vision, the lens is both anti-scratch and anti-fog, with additional vents around the visor frame to further reduce the risk of fogging occurring.

Tear-off lenses are also available. Constructed from soft TPE material, the respirator can mold to the contours of your face for a customized fit and feel.

Filters available for the Integra respirator range from the P100 filter, for protection against dust and other particulate hazards down to 0.3 microns, through to OV and Multi-gas cartridges for further protection against organic, inorganic, chemical, and ammonia based gases.

Perfect for those who frequently encounter the need for both eye protection and respiratory protection, the Integra can provide both to a high standard.

The Integra is certified to the standards below:

NIOSH

APPROVED

**Dual Protection**  
Integrated anti-scratch and anti-fog safety glasses provide ANSI Z87+ eye protection with an unobstructed field of view.

Safety glasses are certified to ANSI Z87+D3, and their design enables air to enter to prevent lens fog from occurring.

Nasal area ridge prevents the respirator from slipping or leaking, and glasses from fogging.

Sleek and considered profile for a clear and unobstructed line of sight.

The soft TPE material molds to the contours of your face to ensure a customized fit and feel.

Mask body is made from soft medical grade TPE material and conforming to ISO 10993-10:2010 for irritations, it is hypoallergenic, odor free, latex free and silicone free.

Available in two sizes: S/M and M/L.

The safety lens is made from polycarbonate with flow coating overmolded into soft TPE, permanently attached to the mask body by stainless steel clips.

4 point adjustable elasticated head and neck strap with comfort pad.

Respirator comes with filters or cartridges pre-installed, and all filters are replaceable.

# PX5® PAPR

The PX5® PAPR changes the way people experience clean filtered air across multiple industries – from medical and chemical settings, through to the profoundly harsh environments of foundries.

The PX5 is the result of years of product refinement, designed with new functional capabilities that increase your ability to perform, while enhancing your experience of comfort. The PX5 redefines what it means to be a powered air purifying respirator.

Weighing just 2.55lbs (1.16kg) with the HEPA filter fitted, and between 3.63lbs (1.65kg) and 3.74 lbs (1.7kg) with a gas filter fitted, the PX5 allows you to get more out of your day by reducing the effects of fatigue. Through strategically distributing its weight with its vertical mounting position and support from our flexi-belt system, the PX5 contours to your body for maximized comfort and stability.

With sleek considered surfaces, quick release mount lock system and certified for IP65 in use and IP67 with cleaning kit in place, the PX5 enables you to efficiently disinfect the unit, reducing downtime and ensuring the system is ready to protect you again.

The PX5 offers three fan speed settings so you can adjust the airflow to suit your personal preferences and the type of environment/application you're working in, these include 170, 210 and 240lpm.

The PX5 is truly the hallmark of powered air purifying respirator capabilities and their practical application.

**NIOSH**  
APPROVED

Only in conjunction with approved respirator.

The PX5® is a portable, battery powered air purifying respirator (PAPR).

It draws in contaminated air from the user's immediate vicinity, passing it through internal filters, and supplying the filtered air to an approved loose-fitting respirator headtop.

Weighing just 1.16kg with the HEPA filter fitted, and between 3.63lbs (1.65kg) and 3.74 lbs (1.7kg) with gas filter fitted, the sleek, lightweight, compact design maximizes your experience of comfort.

The PX5 unit attaches to our flexi-belt system (fitted with the decon easy clean belt) via our intuitive vertical mount lock system. The unit easily removes for quick and simple decontamination process. Backpack option is available for applications that require a greater range of movement and work across varied angles.

From local & globally sourced components.

Ingress Protection - With a completely sealed housing, the PX5 has been certified to IP65 rating in use.

The filter door cannot mount to the unit unless a filter is fixed in place.

The HEPA filter removes up to 99.97% of particulates down to 0.12 microns. The gas filters protect against organic vapor exposure. Replace the pre-filter daily to extend the life of the main filter.

Sealed inside the unit during operation, the long-life lithium-ion battery is protected from moisture when decontaminating and will not disconnect or bump off while operating.

# HX5™ PAPR

Simplifying your protection

With the simple press of a button, experience clean filtered air in an instant as the HX5 removes up to 99.97% of particles down to 0.12 microns, taking care of your breathing so you can focus on the task at hand.

Through its robust housing, the HX5 is able to withstand the physical demands of multiple applications and is certified to IP53, protecting the unit from dust, rainfall and moisture when cleaning and disinfecting. The HX5's design enhances comfort through its supportive vertical mounting position, evenly distributing its weight to reduce the impact of aches, strains and fatigue.

The HX5 is certified to the standards below:

Only in conjunction with approved respirator.

With two mounting options (belt and backpack) and two materials (decon and FR) to chose from, the HX5 allows you to work across multiple applications with complete freedom of movement.

Weighing from just 2.55lbs (1.16kg) with the HE filter fitted, the sleek, lightweight, compact design maximizes your experience of comfort. Through vertical mounting, the HX5 contours to you and the flexi-belt system ensures its support.

Visual and audible alarms alert you when the battery level is low, or when airflow falls below the minimum requirements due to the filter needing replacing or when airflow is obstructed.

■ Ingress protection: The HX5 is certified to IP53, allowing the unit to be wiped down for cleaning or disinfecting purposes as well as withstanding dust and rainfall.

■ Filter Safety: The filter door cannot mount to the unit unless a filter is fixed in place.

■ HEPA filter removes up to 99.97% of particulates down to 0.12 microns. Replace the pre-filter daily to extend the life of the main filter.

■ Sealed inside the unit during operation, the long-life lithium-ion battery is protected and will not disconnect or bump off while operating.

## Robust Design.

It is designed to withstand hazardous working conditions, while enhancing user comfort. With its HE filter, the HX5 supplies clean filtered air to the user's headtop, providing high quality respiratory protection.

Zytac® FR Shoulder Cape

**Part # 16-010-24**  
Z-Link® Radiant Heat Respirator  
*Includes aluminized shoulder cape and  
top, rear and breathing tube covers.*

Z4® (Page 33)

**Part # 15-010-11**  
Z4® Respirator with  
FR Face Seal

**Part # 15-010-21**  
Z4® Respirator with  
FR Shoulder Cape

T-Link® (Page 54)

**Part # 17-110-12**  
T-Link Respirator with  
Tychem® 2000 Hood  
■ Bump cap assembly.

**Part # 17-010-13**  
T-Link® Respirator with  
Tychem® 4000 Hood  
■ Hard hat assembly.

T200™ Headtops (Page 64)

**Part # 17-200-22**  
T200™ Respirator with  
Tychem® 2000 Face Seal  
■ Head harness assembly.

**Part # 17-200-32**  
T200™ Respirator with  
Tychem® 2000 Shoulder Length  
Hood with Face Seal  
■ Head harness assembly.

**Part # 17-210-13**  
T200® Respirator with  
Tychem® 4000 Hood with  
Sealed Seams  
■ Bump Cap assembly.

# C40™ Climate Control Device

Control Your Environment

The GVS-RPB® C40 is a robust climate control device, designed to give you ultimate comfort when using your GVS-RPB® supplied air respirator.

Renowned for our design innovation, the C40 pushes respiratory comfort to the next level. The C40 ensures you are protected for life's best moments by maintaining you at your optimum body temperature, so you don't suffer from heat exhaustion or chilling.

With its simple sleek design, cool the incoming air by up to 52°F (29°C) or alternatively, heat it by up to 33°F (18°C) all by the slide of a lever. This device is the next step for maximizing your productivity and safety.

The C40 is certified to the standards below:

Only in conjunction with approved respirator.

**Low Maintenance**  
The air silencers are the only parts that need cleaning or replacing.

Easily control your temperature with the slide of a lever.

Increase or decrease the airflow by turning the flow control dial.

Durable FR or easy clean belt.

Choose from a range of plugs to suit your application.

Made from lightweight, robust materials - weighs 11.6 ounces (329g), includes belt.

Air inlet swivels 360° to ensure the device sits comfortably on your hip.

From local & globally sourced components

# Radex® Airline Filter

Superior Filtration

The GVS-RPB® Radex Airline Filter improves the quality of the air you are breathing. Exceeding industry filtration standards, the Radex gives you the confidence that you won't be breathing contaminated air known to lead to major health issues. With the Radex, it's our commitment to protect you for life's best moments.

The Radex is fitted with a large capacity, 6-stage filter cartridge that removes moisture, odor and particulates to 0.5 micron from the compressed air stream, providing clean, breathable air. With a unique twist-and-lock wall and floor mounting system, the Radex is adaptable to all workplaces.

An optional auto drain valve is available to fit to your filter that continually removes moisture from the filter housing, increasing the lifespan of the filter cartridge.

**6 Outlet system**  
Upgrade to the 6-outlet system to provide filtration to six separate airlines from one filter.

Quick disconnect coupler that is compatible with brands including Aro, CEJN, Dixon and Rectus.

150 psi safety pressure relief valve.

Claw coupler port (optional).

Fitted with brass drain tap.

Outlet pressure regulator provides the ability to adjust air pressure. Range 0-125 psi (04-900 2 outlet unit only).

Replacement filter cartridges have a replacement date sticker for maintenance scheduling.

Strong, robust housing.

Wall and floor mounting system.

# Radex® Airline Filter - Packages

## Superior Filtration

Part # 04-900

Radex® Airline Filter  
- 2 Outlet - 1 inch NPT inlet

- Filter housing
- Six stage filter cartridge
- Base/wall mount
- Pressure regulator and gauge
- 2x universal couplers.

Part # 04-906

Radex® Airline Filter  
- 6 Outlet - 1 inch NPT inlet

- High flow pressure regulator & gauge
- Six stage filter cartridge
- 6x universal couplers
- Base/wall mount
- Filter housing.

Part # 04-907

Radex® Airline Filter - Complete Breathing Air System with GX4® Gas Monitor

- Filter housing
- 2x Six stage filter cartridge
- Base/wall mount
- High flow pressure regulator and gauge
- 2x universal couplers
- GX4® Gas Monitor
- Mainline pre-filter
- Micro mist filter 1/2"
- Brass nipple 1/2"
- Aluminum wall bracket.

Part # 04-906-RZ

Radex Airline Filter  
- 6 Outlet - 1 inch NPT inlet

- High flow pressure regulator & gauge
- Six stage filter cartridge
- Base/wall mount
- 6x RZ couplers.
- Filter housing.

# GX4<sup>®</sup> Gas Monitor

Multiple Gas Detection Capabilities

The GVS-RPB<sup>®</sup> GX4 Gas Monitor gives you complete confidence that the supplied/compressed air you and your employees breathe is safe. By detecting when there are dangerous levels of toxic gases, this monitor ensures you'll be protected for life's best moments.

Gases such as carbon monoxide are invisible to all the human senses yet are commonly found in industrial premises worldwide. Although low-level exposure may not be immediately fatal, ongoing contact at low levels has a cumulative effect, causing serious illness and long-term health concerns.

The GX4 detects multiple gases simultaneously. With smart device and cloud integration capabilities included this enables you to view your air quality from any device, in real time.

Gas Sensors

Our range of pre-calibrated gas sensors have been updated to fit an improved sensor while incorporating an ergonomic design for simple removal and replacement.

Available in CO, O2 and H2S, all with a 2-year shelf life.

Illuminated display that shows real time data.

Complete quick and easy calibration checks with no set points required.

Robust power inlet.

Push release air inlet.

103 DBA staccato alarm.

Monitor up to four gases simultaneously.

Cartridges can be easily removed and replaced.

Sturdy mounting bracket.

Strong nylon ABS case that will handle the harshest of conditions.

GVS-RPB® 2 Inch Belt Assembly	Part # 07-765-FR

GVS-RPB® Full Parts Index

HX5™ PAPR - Packages	Page 102
HX5™ PAPR Easy Clean Starter Pack	Part # 03-601
HX5™ PAPR Industrial Starter Pack	Part # 03-601-FR
HX5™ PAPR Easy Clean Starter Pack with Backpack Assembly	Part # 03-603
HX5™ PAPR Industrial Starter Pack with Backpack Assembly	Part # 03-603-FR

HX5™ PAPR - Approved Headtops	Page 104
Z-Link® Respirator with Tychem® 2000 Face Seal	Part # 16-010-12
Z-Link+® Respirator with Zytac® FR Shoulder Cape	Part # 16-000-21
Z-Link® Radiant Heat Respirator	Part # 16-010-24
Z4® Respirator with FR Face Seal	Part # 15-010-11
Z4® Respirator with FR Shoulder Cape	Part # 15-010-21
T-Link® Respirator with Tychem® 2000 Hood	Part # 17-110-12
T-Link® Respirator with Tychem® 4000 Hood	Part # 17-010-13
T200™ Respirator with Tychem® 2000 Face Seal	Part # 17-200-22
T200™ Respirator with Tychem® 2000 Shoulder Length Hood with Face Seal	Part # 17-200-32
T200™ Respirator with Tychem® 4000 Hood with Sealed Seams	Part # 17-210-13

HX5™ PAPR Filters/Cartridges	Page 106
Pre-Filters	Part # 03-890
PAPR Spark Arrestor	Part # 03-891
HEPA Filter	Part # 03-892

HX5™ PAPR Accessories	Page 106
Back Harness Assembly	Part # 03-822-DC
Back Harness Assembly	Part # 03-822-FR
Tychem® Breathing Tube Cover	Part # 04-852
FR Breathing Tube Cover	Part # 04-854
Disposable/Decon Breathing Tube Sleeve	Part # 04-856
Short Tychem® Breathing Tube Cover	Part # 04-872
Short FR Breathing Tube Cover	Part # 04-874

HX5™ PAPR Parts	Page 106
PX5® Breathing Tube	Part # 04-831
PX5® Breathing Tube Short	Part # 04-841
PAPR Coupler Seal	Part # 04-834
Fan Housing	Part # 03-610
Belt Support Mount	Part # 03-811
Door Cover	Part # 03-812
HEPA Filter Door	Part # 03-813
Battery Door Assembly	Part # 03-815
Battery Door Seal	Part # 03-817
Door Hinge	Part # 03-818
Flow Meter	Part # 03-819
Battery Charger	Part # 03-851
Battery	Part # 03-855
High Capacity Battery	Part # 03-856
GVS-RPB® Power Cable	Part # 09-021
GVS-RPB® 2 Inch Belt Assembly	Part # 07-765-DC
GVS-RPB® 2 Inch Belt Assembly	Part # 07-765-FR

Supplied Air Flow Devices	Page 108
Constant Flow Valve Assembly	Part # 03-101
Constant Flow Valve Assembly	Part # 03-106
GVS-RPB® C40™ Climate Control Device	Part # 03-501
GVS-RPB® C40™ Climate Control Device	Part # 03-501-FR
GVS-RPB® C40™ Climate Control Device	Part # 03-501-RZ
GVS-RPB® C40™ Climate Control Device	Part # 03-504
Cold Air Tube Assembly	Part # 4000-01
Cold Air Tube Assembly	Part # 4000-02
Cold Air Tube Assembly	Part # 4000-40
Hot Air Tube Assembly	Part # 4000-20
Flow Control Valve Assembly	Part # NV2016

Supplied Air Breathing Tubes	Page 108
SAR Breathing Tube	Part # 03-031
SAR Breathing Tube	Part # 04-833
SAR Breathing Tube	Part # NV2021B
Tychem® Breathing Tube Cover	Part # 04-852
FR Breathing Tube Cover	Part # 04-854
Aluminized Breathing Tube Cover	Part # 04-855
Disposable/Decon Breathing Tube Sleeve	Part # 04-856
GVS-RPB® 25' Breathing Air Supply Hose 3/8" Diameter	Part # NV2028
GVS-RPB® 50' Breathing Airline Hose 3/8" Diameter	Part # NV2029
GVS-RPB® 100' Breathing Airline Hose 3/8" Diameter	Part # NV2027
GVS-RPB® 25' Breathing Air Supply Hose 3/8" Diameter	Part # 04-352-25-RZ
GVS-RPB® 50' Breathing Airline Hose 3/8" Diameter	Part # 04-352-50-RZ
GVS-RPB® 100' Breathing Airline Hose 3/8" Diameter	Part # 04-352-100-RZ
GVS-RPB® 25' Breathing Air Supply Hose 3/8" Diameter	Part # 04-342-25
GVS-RPB® 50' Breathing Airline Hose 3/8" Diameter	Part # 04-342-50
GVS-RPB® 100' Breathing Airline Hose 3/8" Diameter	Part # 04-342-100
GVS-RPB® 50' Breathing Air Supply Hose 1/2" Diameter	Part # NV2035
GVS-RPB® 100' Breathing Airline Hose 1/2" Diameter	Part # NV2036
GVS-RPB® 15' Recoil Breathing Air Supply Hose 3/8" Diameter	Part # 04-412-15
GVS-RPB® 50' Recoil Breathing Airline Hose 3/8" Diameter	Part # 04-412-25

Supplied Air Flow Device Parts	Page 112
Quick Release Tail 1/4" Male Thread	Part # 03-012-PM
Adapter 1/4" RPB Plug to 3/8" NPT Male Thread	Part # 03-013-PM
Schrader Coupler to 1/4" NPT Female	Part # 03-042-CF
Schrader Plug to 1/4" NPT Female	Part # 03-042-PF
DQC SHD-Series Schrader Plug to 1/4" NPT Male	Part # 03-042-PM
Schrader Twist Lock 3/8 MNPT Plug	Part # 03-043-PM
Quick Release Tail 1/4" Male Thread with RZ Fitting	Part # 03-052-PM-RZ
Top Thread Cap BSP Thread	Part # 4000-03
Top Thread Cap GHT Thread	Part # 4000-036HT
Cold Air Spinner	Part # 4000-04

Supplied Air Flow Device Parts Continued	Page 112
Cool Air Tube Body	Part # 4000-05B
Hot Air Tube Body	Part # 4000-05R
Breaker	Part # 4000-07
Regulator Body	Part # 4000-08
Spindle and Knob	Part # 4000-09
Locking Screw	Part # 4000-10
Regulator Assembly	Part # 4000-11
Temperature Shield	Part # 4000-12
Hot Air Spinner	Part # 4000-13
Flow Reducer	Part # 4000-14
Outlet Valve	Part # 4000-15
Silencer Disc	Part # 4000-16
Silencer Disc - Brass	Part # 4000-16B
Retainer Nut	Part # 4000-17
Outlet Valve Complete Assembly	Part # 4000-18
Outlet Valve	Part # 4000-38
1.5" Nylon Belt	Part # NV2022
SAR Breathing Tube Hose Washer	Part # NV2023
Quick Release Coupler 1/4" Female Thread	Part # NV2025
Adapter 1/2" Low Pressure Plug to 3/8" NPT Male Thread	Part # NV2034

C40™ Climate Control Device - Parts	Page 116
SAR Breathing Tube	Part # 04-833
Tychem® Breathing Tube Cover	Part # 04-852
FR Breathing Tube Cover	Part # 04-854
Aluminized Breathing Tube Cover	Part # 04-855
Disposable/Decon Breathing Tube Sleeve	Part # 04-856
C40™ Tychem® Cover	Part # 04-862
1/4" Plug to 1/4" NPT Male Swivel	Part # 03-012-PMS
Schrader Twist Lock MNPT Swivel Plug	Part # 03-042-PMS
1/4" Male Thread RZ Coupler Swivel Plug	Part # 03-052-PMS-RZ
C40™ U Tube Assembly	Part # 03-510

C40™ Climate Control Device - Parts	Page 116
C40™ Bottom Case	Part # 03-514
C40™ Top Case Assembly	Part # 03-521
C40™ Exhaust Assembly	Part # 03-522
C40™ Silencer Assembly	Part # 03-526
C40™ Inlet Collar	Part # 03-536
C40™ Silencers	Part # 03-537
C40™ Belt Loop - 03-521	Part # 03-539
2" Belt Assembly	Part # 07-765
2" Belt Assembly	Part # 07-765-FR

Radex® Airline Filter - Packages	Page 120
Radex® Airline Filter - 2 Outlet - 1 inch NPT inlet	Part # 04-900
Radex® Airline Filter - Complete Breathing Air System with GX4® Gas Monitor	Part # 04-907
Radex® Airline Filter - 6 Outlet - 1 inch NPT inlet	Part # 04-906
Radex® Airline Filter - 6 Outlet - 1 inch NPT inlet	Part # 04-906-R

Radex® Airline Filter - Parts	Page 122
1/4" Coupler 3/8" Female Thread	Part # 04-911
3/8" Brass Tee	Part # 04-912
3/8" Brass Cap	Part # 04-913
Pressure Regulator	Part # 04-914
Pressure Gauge	Part # 04-915
Pressure Relief Valve	Part # 04-916
O-Ring	Part # 04-919
Bolt, Nut, Washer	Part # 04-920
Brass Drain Tap	Part # 04-922
Base/Wall Mount	Part # 04-923
Auto Drain Unit	Part # 04-924
Micro Mist Filter 1/2"	Part # 04-925
1" x 1/2" Reducing Nipple	Part # 04-926

Radex® Airline Filter - Parts Continued	Page 123
Mainline Pre-filter	Part # 04-927
Brass Elbow	Part # 04-928
Filter Element	Part # 04-929
Micro Mist Filter Element	Part # 04-930
Auto Drain Assembly	Part # 04-931
Claw Coupler	Part # 04-951
1/2" x 1/2" Male NPT Nipple	Part # 04-952
3/8" BSPT to 3/4" BSPT Brass Fitting with Sealant Paste	Part # 04-953
Six Outlet Upgrade Kit	Part # 04-960-RZ
Radex Filter Lid	Part # 04-961
Super High Flow Regulator	Part # 04-962
1/4" Coupler 3/8" MNPT	Part # 04-964
6 Outlet Manifold	Part # 04-965
1" NPT Hex Connector	Part # 04-966

GX4® Gas Monitor - Packages	Page 126
GX4® Gas Monitor	Part # 08-400

GX4® Gas Monitor Sensors	Page 128
Gas Sensor Cartridge	Part # 08-420-01
Gas Sensor Cartridge	Part # 08-420-02
Gas Sensor Cartridge	Part # 08-420-03
Gas Sensor Cartridge	Part # 08-420-04

GX4® Gas Monitor Accessories	Page 128
Wall Bracket	Part # 08-231
Heavy Duty Field Case	Part # 08-424
Heavy Duty Field Case Includes Battery and Charger	Part # 08-427
Auxiliary Cable 50ft with Bare End	Part # 08-434
Strobe Light with 50ft Cable	Part # 08-435
Auxiliary Strobe & Alarm Tower with 50ft Cable	Part # 08-436

GX4® Gas Monitor - Parts	Page 129
Blank Sensor Case	Part # 08-420
Sensor Manifold Tube	Part # 08-422
Mounting Bracket	Part # 08-425
Air Supply Hose	Part # 08-428
Air Supply Hose with RZ Fittings	Part # 08-428-RZ
M5 Inlet Filter	Part # 08-429
Power Pack Assembly	Part # 08-430
12 Volt Battery Clip & Plug	Part # 08-431
AUX, Field Install Jack	Part # 08-437
Calibration Adapter	Part # 08-450
Calibration Flow Regulator	Part # 08-451
Calibration Flow Regulator	Part # 08-452
Zero Air	Part # 08-460
CO 20ppm	Part # 08-461
H2S 20ppm	Part # 08-462
External Flow Regulator	Part # 08-470
External Flow Regulator with RZ Fittings	Part # 08-470-RZ
Power Cable	Part # 09-021

## ⚠ **WARNING** PRODUCT SELECTION

- 1. Determine what type of protection is required for your activity.**  
As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
  - 2. Check product specifications.** Contact GVS-RPB® or check the product instruction manual (downloadable from [gvs-rpb.com](https://gvs-rpb.com)) for complete specifications, including approvals, standards, and regulations to which the product conforms.
  - 3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from GVS-RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-GVS-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.**

Protecting you for life's **best** moments.

## Europe

### Italy - Head Office

GVS S.P.A.  
Via Roma 50,  
40069 Zola Predosa (BO), Italy
